The undersigned institution is organized, among other things, for the care of estates, either as assignee or custodian under will, and either for the first settlement or for their continuous direction and manage-

Its facilities enable it to discharge these duties at a less cost to the owner than individual service can be secured and with greater precision and celerity. Its financial standing (\$2,000,000 in all) affords the fullest guaranty of safety. Consultation on this subject, for which no charge is made, is invited from all interested in estates of any kind, real or

THE TRUST SUFFERED

WHISKY STOCK HEAVY AND DE-CLINED ON BAD REPORTS OUT.

General Market Strong with a Number of Advances-Indianapolis Grain Dull and Unchanged.

At New York, yesterday, money on call was easy at 1 per cent.

Prime mercantile paper. 3651/2 per cent. Sterling exchange was firm, with actual business in bankers' bills at \$4.85%@4.86 for demand and \$4.85@4.85% for sixty days; posted rates, \$4.851/2@4.86 and \$4.87; commercial bills, 34.84.

at 64c per ounce; Mexican dollars, 521/2c. At London, bar silver closed at 29 7-16d. Total sales of stocks were 185,205 shares, including: Atchison, 3,400; American Sugar, 59,400; Burlington, 18,500; Chicago Gas, 4,100; Chesapeake & Ohio, 3,000; Distillers', 12,700; Reading, 6,200; Rock Island, 5,100; St. Paul,

15,200; Western Union, 3,800. The speculation in the stock market, except during the first hour of business, was strong in tone, but the volume of the transactions was rather light. At the opening a drive was made by the bears on the general list, which was induced by the heaviness of American securities on the London Exchange and by a moderate

selling movement in the United States market for foreign account. Under this pressure prices gave way materially, Sugar declining 14, to 103%; Burlington & Quincy 11%, to 75%; United States Cordage 1%, to 15, and the rest of the shares a fraction, with some few unimportant exceptions. The depression in Sugar was due to a report that the directors were not unani-mous in the declaration of the dividend, and that one of the leading members of the board was in favor of making the dividend 2 per cent. The conditions were not favorable for a bear movement. All the dividends as to which there had been doubt had been declared at the regular rate, and Western Union came out with a favorable report and the usual dividend. News from the reorganization committees were rather favorable. A ready absorp-tion of the stocks offered for sale checked the movement of the short interest, and a gradual improvement in values was begun, which, with an occasional slight reaction, continued to the close. The early declines were rapidly recovered in most instances, and during the afternoon a higher range of values was established, the market clos-ing firm at a very general advance of 46 2 on the day's transactions. The strength of the coal stocks was a marked feature the speculation, and was accompanied by a rumor that a new coal combination was about to be formed. Of course, the rise in Reading was also assisted by the reported progress toward reorganization. Sugar sold up 1% from the low point of the morning and reacted 1%, retaining a gain of 1%. Burlington & Quincy recovered all but 1% of the morning break. Cordage recovered 13%. Distilling was weak all day, closing at the lowest point touched, which was 11% below the final sale of Tuesday. The depression in the shares was due to the action of the holders of rebate vouchers of the company in appointing a committee to protect their interests and exthe affairs of the capital. C., C., C. & St. Louis and Northern Pacific preferred

A generally firm tone marked the dealings in the bond market and considerable activity was developed. The transactions aggregated \$1,895,000. Northern Pacific dividend scrip opened at 35 and sold up to 40. Other fluctuations of note were: Advances-United States Cordage firsts, Chesapeake & Ohio Southern sixes and Toledo, St. Louis & Kansas City trust re-11/2. Burlington debenture fives declined 1% per cent.

LOCAL GRAIN AND PRODUCE. Cooler Weather Increasing Trade and

Steady Prices Ruling.

In most departments on the wholesale

streats the cooler weather has proven ben-

men talk more encouragingly and say prices are firmer, and in many other lines a steadiness to prices is noticeable. Poultry, eggs and butter are in better request, although no higher prices are quoted. The seed market is more active. Clover seed weak at quotations. Green hides are

higher, advancing 1/2c.
The local grain market yesterday showed little change from Tuesday in volume of business or quotations. There is a steady demand for corn and oats, while wheat shows little activity. Track bids yesterday ruled as follows: Wheat-No. 2 red, 494c; No. 3 red, 44%c;

NIAGARA FALLS AT POMPEII.

Magnificent Pyrotechnical Design a Feature To-Night.

The special feature that is to be introduced in the production of "Last Days of Pompeli" to-night will be one of unusual elaboration and beauty. It is a representation, nearly 200 feet long, in solid flames of different colors, of Niagara falls, being the largest piece of fireworks ever manufactured. The workmen have been preparas it is a very difficult and expensive piece to get up. To-night will also be G. A. R. night, and in honor of the veterans the badge of that order will be represented in fireworks, as well as other special designs. There is reason to expect a great attendance to-night. On Tuesday night, when the weather was decidedly chilly, and there were no special attractions, there was a large crowd, which will probably be much increased to-night with pleasanter atmospheric conditions, and such a great special attraction as "Niagara on fire

New specialties are to be introduced at each of the succeeding performances. The French grotesque dancers, who will make their second appearance to-night, do a novel and attractive act-one of the best of its kind ever seen here. An excursion party of 200 people will be here from Shelbyville to see Pompeii tonight, and there will be large delegations from other neighboring towns. The fame of the spectacle is spreading throughout the State, and is drawing many people to the city, which was the original purpose of its

production here. Next Saturday night will be "Indianapolis Night," when it is expected that the attendance from the city will be the greatest yet seen at Lincoln Park. Mayor Denny's picture will be "done" in fire, and there will be other special attractions. There will be four presentations of the spectacle next week-Tuesday, Wednesday, Thursday and Friday nights, and it is expected that the crowds who will be in town to attend the State fair will fill the amphitheater at the performances of Pompeii.

Crime in the South.

To the Editor of the Indianapolis Journal: Permit me to express the opinion that the brutal manner in which the black men in the South have been hung up and shot down like dogs, without giving them a chance to defend themselves, is not to be passed unnoticed. When any crime is committed a pack of negro-haters are put on the track of some one or more black men. who are at once declared to be guilty of the offense, and they are murdered without any trial or any evidence, in some instances. The committee appointed in England is not to acquire any political advantages-not for spoil or conquest, but to learn the truth about these charges and to express an opinion on a question of humanity. Instead of blubbering over stale and obsolete sayings or threats of twisting the lion's tail, it would be more in harmony with enlightened public sentiment to seek to stretch the necks of the men who have disgraced our government. The eyes of all nations are upon us, and we must be seen as we are. Indianapolis, Sept. 12.

Wheels and Priests. Springfield Republican.

Now that Pope Leo XIII has given his consent to the use of bicycles by priests, the matter of dress reform has assumed almost as much importance as with women. A priest does not present a dignified figure with his skirts tucked up under cach arm, nor does the gown lend itself freachy to crosser designs.

BIG CROWD OF BEARS

PREVENTED WHEAT, THOUGH STRONG, FROM MAKING ANY GAINS.

Soft Spots in Corn Were Raided, Causing a Decline-Oats and Provisions Both Higher.

CHICAGO, Sept. 12 .- Wheat was inclined to firmness to-day on smaller receipts, but the bears dealt out grain freely and December closed unchanged. Corn closed 1/8c lower for May, but oats wound up with May %c higher, and provisions closed at slight advances.

Wheat opened firm at a slight advance on yesterday's closing price. The firmness was probably due to the moderate receipts here and in the Northwest and to the steadiness of the cables. December started at 57%c, but was immediately attacked by what was termed collectively the Pardridge-Rosecrans-Brosseau crowd, and it gradually weakened until 1/2c had been rubbed off its opening value. It rose again to the opening quotations and about an hour from the close 57% 6571/2c was bid for it. Estimated receipts for to-morrow were quite light at 150 cars and were an aid in sustaining prices toward the close, December finishing at 571/2c.

Corn averaged firm, although there were 200 lbs, \$17@18; rump pork. \$15@15.50. Breakfast Bacon-Clear firsts, 131/2@14c; soft spots which appeared to suggest a fighting chance to the bears. They had a seconds. 10%@13c. Lard - Kettle-rendered, in tierces, 10@ rumor early that some corn bought by a prominent commission house would be for sale during the forenoon, and some selling which actually occurred was thought to be the corn in question, but it was afterward found to be no part of the rather important long line referred to, and the same commission house which bought yesterday took more to-day. The market started strong, but there were sufficient realizing sales from scattered longs to cause temporary depression and a decline of about %c from the highest price made near the opening. May started at from 56% 256% c. sold for a time at around 564c, touched 56%c for a moment, declined to 55%c, re-covered again to 56%c, dropped back to 55%656c and at the end was at 56c. Business was active in spots and dull for much longer intervals.

The oats market was fairly active and higher. The movement of corn had something to do with the firmer feeling, but there was also independent strength visible outside of that. Good buying orders were received from the outside and the disposition in general was to take in instead of dispose of stuff. Schwartz, Dupee & Co. and F. G. Logan were the principal traders on the purchasing side. May started steady at from 361/sc to 361/4c, sold down to 36c and back again to 3612c, where

The provision market was easy at the opening, but the demand at the slight decline which inaugurated the trading, was so good that sellers soon withdrew their offers and prices quickly recovered the first loss. The feeling became quite strong after that and prices rose until pork had gained 1714c on the lowest price January had sold for, and it stood at the close only 2½c under its best price for the day and was higher than it closed yesterday. Lard in the end gained .021/2c and ribs .05c. Freight rates were steady; charters to Buffalo, 1½c for wheat, 1½c for corn, and

11/2c for oats, and to Port Huron, 11/2c for Estimated receipts for Thursday: Wheat, 150 cars; corn, 185 cars; oats, 110 cars; hogs,

Northwestern Miller Shows There Is a Small Decrease. MINNEAPOLIS, Sept. 12.-The North-

western Miller says: The Minneapolis mills

are still turning out a large amount of

flour, the weekly output being 225,721 barrels, or a daily average of 28,287 barrels, against 236,240 barrels for the preceding week. There were nineteen mills running this week, same as last. The water power is not quite as good as it was a week ago, and a few more mills have used steam wholly or in part. There cannot be said to be any improvement in the flour market. Foreign trade remains in a very unsatisfactory condition. Sales have been mostly for bakers' patents. The Superior-Duluth mills ground 74,022 barrels, an average of 13,725 barrels dally, against 96,928 barrels in the week preceding. All the mills are now running full time and capacity. Prices for flour are not what millers could wish to have, yet there is a small margin of profit on current sales of the better grades of the output, and a good margin on millstuffs and feed. The demand for feed is still firm. Millers found both the domestic and the foreign market in a buying mood. Every mill at Milwaukee ground either one-half or full time the past week, which is a very pleasant thing to note. The output for the week is larger than it has been for some time. Foreign shipments from here were 11,470 sacks, against 15,820 last week, and 12,000 sacks for the week before. The total output of the St. Louis mills was 76,000, against 83,900 barrels the week before. The chances favor a somewhat larger manufacture next week, though millers continue to complain of dull times. Domestic trade was small.

CHICAGO, Sept. 12.-Nearly 20,000 head of cattle here and not 5,000 head that were good enough to attract the attention of salppers. Of natives there were barely 7,000 head all told and there was only here and there a bunch that could, by any stretch of the imagination, be classed better than good. A few lots of ripe corn-fatted steers averaging from 1,550 to 1,650 lbs were taken at \$6.20@6.35, but, perhaps, 75 per cent. of the sales of natives were below \$5.65. All grades showed weakness, and, excepting the very best, the range of prices was 100 loc lower than on Monday. They were salable at 10@15c from yesterday's prices, and the bulk of them changed hands on that basis. Texans were in moderate supply (2,600 head) and were without Important change.

Hog prices were not subjected to any material change. Good hogs were wanted at fully former prices and common stock was dull and weak, but neither class was a nickle away from yesterday's quotations. The present difference between the market value of good and common qualities is exceptionally wide-quite \$1 per 100 pounds. Shippers are taking about all of the good hogs, leaving the refuse for local packers and butchers. The bulk of the packers' purchases are made below \$6.25. The receipas were estimated at 24,000, making about 64,000 for the first three days of this week, as against 61,781 a week ago, and 78,-

054 a year ago.

In sheep, the run for yesterday which, at the start, was estimated at 12,000 head and later in the day at 15,000, actually footed up 18,783. To-day's receipts were about 16,-000, making close to 35,000 head for the two days. The market was glutted and all grades of sheep and lambs sold lower. The decline in the former amounts to 150025c. and in the latter to 25635c, present quotations ranging from \$1@3.25 for poor to choice sheep, and from \$1.50@4 for lambs. The close was bad with a good deal of stock left over. Receipts-Cattle, 20,000; calves, 1,000; hogs, 24,000; sheep, 16,000, NEW YORK, Sept. 12.-Beeves-Receints, 2,950; 53 cars on sale. Prefers the Republican Way. To the Editor of the Indianapolis Journal: I see by to-day's Sentinel that in case the Republicans are successful they also will tinker with the tariff, as they have been calling the tariff bill just passed all kinds of hard names. The people well understand that there is a vast difference in the two ways of tinkering. The Republican way of tinkering builds up home industries and gives plenty of work at reasonable wages, but the Democratic way of tinkering destroys home industries and doesn't give work at any price.
